

## Transport Training Program (AZ)

- 6 Weeks - 260 Hours
- 500 page TTCC Textbook/Workbook included
- 2 Weeks Classroom Training - 80 Hours
- 180 Hours of Truck Time
- One on One or Group Training

### Skid School

#### *Canada's only Skid School for Trucks*

Included in your AZ program at no extra charge. Learn Decision Driving Techniques both in the classroom and in actual hands-on activities using our exclusive skid pad facility. Our skid control and recovery driver training program is **dramatic training** that will show you how to anticipate and recover from skids. Visit our website: [www.ttcc.ca](http://www.ttcc.ca) and check out the video under the heading "Skid School". It's the only one of its kind in Canada

### Simulator

#### *Unlimited Shifting & Backing Practice!*

Learning to shift a truck with a standard transmission and back it up is critical to your success in this industry. Simulators allow self-paced training that enables novice drivers to learn how to shift a non-synchronized transmission in only a few hours and perfect the art of backing. One of the main reasons our courses are so superior, is the fact that we have invested in Simulators for our students. Simulator training is a proven training aid used at schools throughout North America and with many employers.

### Dump Truck Training

#### *Maximize your Employment Opportunities*

Don't limit your Trucking career to Long Haul driving. **Maximize your employment opportunities.** Included with your training we will also train you hands-on with a dump truck. You will learn how to properly operate the PTO (Power Take Off), loading and unloading. Learn different techniques of tail gate uses. Learn how hydraulic systems and hoists work. Dump Truck training will give you many of the skills most sought after by a wider range of employers.

### Common Core Surface Miner Certification

Since 2002, all Heavy Equipment Operators and Truck Drivers who extract materials from a quarry or a gravel pit require a Common Core Surface Miner Certificate. The Ministry of Training, Colleges and Universities is responsible for the implementation of this program. Under their authority we will provide you with the necessary training and certification for your employer to sign. This is included with your AZ program so you can be **Job Ready**.

Canada's **LARGEST** Provider of Truck Driver Training & Heavy Equipment Operator Training
